OTTERBOX PROTECTION *for the*

Amazon Kindle Fire

Designers at OtterBox create a number of concept renderings that feature different stylistic treatments with minor variations in functionality. The concept that best matches the experience of the device with intuitive functionality gets selected. By varying appropriate textures, a visual bond is created between the device and the case. Incorporating innovative engineering, the case offers intuitive full-functionality of the device while providing great protection — a true marriage of form, fit and function.

The super clean, easy to use Defender Series case for Kindle Fire protects like nothing else. Brilliant engineering and precision design come together to create a case that is highly attractive, functional and reliably protective. Textures on all sides, angular styling and intuitive design all add up to a protective solution that enables and enhances the use experience of the device. Covered in rugged protection, this multi-function device can go anywhere you do without worrying about damage.
